

API 570 PIPING INSPECTION

Avoid potential inspection delays and provide high level safety for process piping

6 - 8 December 2021
12.00pm - 5.00pm | GMT+8

**Interactive Virtual
Instructor-Led Training**

WHY YOU SHOULD ATTEND

This Virtual Instructor-Led Training will help participants to understand API 570 inspection methodologies, remaining life calculation repair & re-rating of in-service piping system. Ways to adopt code rules for process piping systems and various service conditions will be discussed in this training.

Important codes will be reviewed to address the difficulties and challenges participants might have encountered during the maintenance process. At the end of the training, participants will be guided on preparation of API 570 inspector certification.

AUDIENCES

This training is specifically designed for: -

- Process Piping Inspectors & Engineers
- Piping Inspection Engineers
- Plant Inspectors
- Materials & Corrosion Engineers
- Safety Engineers
- Operations Engineers
- Quality Control Engineers
- Asset Integrity Engineer
- Welding Inspectors

This is an **Interactive Virtual Instructor-Led Training (VILT)**. Kindly ensure you have a working Webcam and Headset with Microphone.
