

Distributed Control System

Reduce operation costs as well as implement advanced control strategies

17 & 18 October 2022
1.00pm - 6.00pm | GMT+8

Interactive Virtual
Instructor-Led Training

WHY YOU SHOULD ATTEND

This virtual training will provide participants an understanding on Distributed Control System, computer-based control system and typical requirements for a Remote Terminal Units (RTU) System.

Participants will also able to master the concepts relating to Distributed Control System, have the confidence and knowledge to apply the techniques and principles in the workplace.

AUDIENCES

This training is specifically designed for: -

- Automation Engineers
- Chemical Engineers
- Consulting Engineers
- Design Engineers
- Electrical Engineers
- Installation and Maintenance Technicians
- Instrument and Process Control Engineers and Technicians
- Maintenance Engineers
- Mechanical Engineers and Technicians
- Operations Engineers
- Process Engineers
- Production Managers
- Project Managers
- System Integrators

This is an **Interactive Virtual Instructor-Led Training (VILT)**. Kindly ensure you have a working Webcam and Headset with Microphone.
