

Company Valuation Masterclass

Essential skills to perform company and business valuation

15 - 16 March 2023

This is an **interactive Virtual Instructor-Led Training (VILT)**.
Kindly ensure you have a working Webcam and
Headset with Microphone.

*Delegates are required to have MS Excel 2010 or newer version
downloaded in their laptops for the purpose of this training*

KEY BENEFITS OF ATTENDING

- **UNDERSTAND** discounted cash flow analysis
- **CONSIDER** the value and growth investing perspectives to investment decisions
- **DERIVE** valuation models from public financial statements
- **DEVELOP** Excel modelling skills to build a financial model for valuation purposes
- **USE** terminal values to incorporate long term earnings scenarios
- **CALCULATE** key financial ratios that can be used for comparative valuation
- **CONSIDER** the limitations of the different valuation techniques for different business types and life stages
- **DETERMINE** company value using an absolute analysis and a 'sum of the parts' analysis
