

# Fractional Distillation Process and Analysis

*Reduce plant operating and energy cost, improve safety of distillation equipment*

**1 - 3 August 2023**  
1.00pm - 6.00pm | GMT+8

Interactive Virtual  
Instructor-Led Training

## WHY YOU SHOULD ATTEND

This highly intensive and practical Virtual Instructor-Led Training will cover the key areas of assessing the design of the internals through to their eventual installation and covers the topics from a practical viewpoint such as can be obtained only by hands-on involvement.

The training will also address various issues related to operation & design and should enable engineers to make a positive and definable economic contribution to their company profits with a minimum of delay.

## AUDIENCES

This training is specifically designed for: -

- Plant Managers
- First Line Operations Personnel
- Operation Supervisors
- First Line Maintenance Personnel
- Maintenance Supervisors
- Operations Engineers
- Process Support Engineers
- Design & Cost Engineers

This is an **Interactive Virtual Instructor-Led Training (VILT)**. Kindly ensure you have a working Webcam and Headset with Microphone.
