

OIL & GAS PRODUCTION TECHNOLOGY

Acquire the skill to make an important decision through production optimization and forecasting

1 - 3 April 2024
1.00pm - 6.00pm | GMT+8

Interactive Virtual
Instructor-Led Training

WHY YOU SHOULD ATTEND

This Virtual Instructor-Led Training will help participants to understand various process involved in oil and gas production activities, from reservoir to metering and exporting the crude oil and natural gas.

Fundamentals and latest technological development are included in very simple and comprehensive way will be discussed. Process operations, process control, trouble shooting and quality control are also included. A highly interactive combination of slides presentation, discussion, exercise and short videos will be included in this training session.

Organised by:

WEeventz Pte Ltd (Singapore)
WEeventz Malaysia Sdn Bhd (Malaysia)

AUDIENCES

This training is specifically designed for: -

- Petroleum Engineers
- Production Technologists
- Production Engineers
- Completions Engineers
- Engineering Managers
- Production Managers
- Reservoir Engineers
- Process Engineers

This is an **Interactive Virtual Instructor-Led Training (VILT)**. Kindly ensure you have a working Webcam and Headset with Microphone.
