

# Technical Due Diligence in Mergers & Acquisitions

Confirming, Planning, And Finding Risks To Ensure A Solid Transaction

22 – 23 April 2024

This is an **interactive Virtual Instructor-Led Training (VILT)**.  
Kindly ensure you have a working Webcam and Headset with Microphone.

## KEY BENEFITS OF ATTENDING

- Intensively **EXAMINE** important checklists to help you in each phase of the DD process - Both pre and post deal
- **UNDERSTAND** the timing and key elements of a deal
- **IDENTIFY** the different perspectives and early preparation needed from both the buy and sell side of a deal
- **EXPLORE** practical considerations and common problems where due diligence is not robust
- **LEARN** specific technical areas to perform due diligence on, covering the spectrum from IT, Project work and legal considerations to strategic concerns, as well as what constitutes appropriate evidence
- **GAIN** insights on typical contents of technical due diligence reports
- **IDENTIFY** and **UNDERSTAND** the nature of historic tax exposures that buyer could become primarily or secondarily liable
