

Mobile Cranes Inspection and Safe Rigging Practices

Prevent accidents, maintain equipment reliability and ensure OSHA compliance

29 & 30 April 2024
1.00pm - 6.00pm | GMT+8

Interactive Virtual Instructor-Led Training

WHY YOU SHOULD ATTEND

Crane inspection is a crucial aspect of workplace safety, particularly in industries that rely heavily on powerful machines like mobile cranes for lifting or transporting heavy materials. Regular inspections help identify potential hazards, detect wear and tear, and ensure that cranes are operating in compliance with OSHA standards.

This 2-day masterclass on Mobile Cranes Inspection and Safe Rigging Practices will allow participants to understand how the maintenance of mobile cranes works, hence reducing equipment failures indirectly increasing productivity.

Organised by:

WEeventz Pte Ltd (Singapore)
WEeventz Malaysia Sdn Bhd (Malaysia)

AUDIENCES

This course is specifically designed for all who are both directly and indirectly involved or have their hands on mobile cranes including: -

- Mobile crane operators
- Mobile crane owners
- Production supervisor
- Crane mechanics
- Crane technicians
- Project owners
- Construction authorities
- Lifting and crane operators
- Safety and healthy officer
- Safety and health supervisor
- Site safety supervisor
- Site engineers

This is an **Interactive Virtual Instructor-Led Training (VILT)**. Kindly ensure you have a working Webcam and Headset with Microphone.
