

# MODERN WELDING TECHNOLOGY

## Welding, Fabrication & Inspection

*Learn the latest techniques and machinery in welding technology*

1 - 3 July 2024  
1.00pm - 6.00pm | GMT+8

Interactive Virtual  
Instructor-Led Training

## WHY YOU SHOULD ATTEND

This Virtual Instructor-Led Training will help participants to develop their knowledge and skills in a range of modern welding technology and techniques. Participants will learn various welding processes, their selection, preparation and usage.

After completing the training, participants will be able to analyse welding processes to identify and apply appropriate safe work practices, and perform welding operations with the appropriate process on various metals in different situations.

## AUDIENCES

This training is specifically designed for: -

- Production and Maintenance Professionals
- Inspectors and Welders
- Welding Engineers
- Design and Planning Engineers
- Mechanical Engineers
- Supervisors
- NDT Personnel
- Maintenance Personnel

LIVE  
VIRTUAL EVENT

This is an **Interactive Virtual Instructor-Led Training (VILT)**. Kindly ensure you have a working Webcam and Headset with Microphone.
