

# Fractional Distillation Process and Analysis

*Reduce plant operating and energy cost, improve safety of distillation equipment*

21 - 23 October 2024

1.00pm - 6.00pm | GMT+8

Interactive Virtual Instructor-Led Training

## WHY YOU SHOULD ATTEND

This highly intensive and practical Virtual Instructor-Led Training will cover the key areas of assessing the design of the internals through to their eventual installation and covers the topics from a practical viewpoint such as can be obtained only by hands-on involvement.

The training will also address various issues related with operation & design and should enable engineers to make a positive and definable economic contribution to their company profits with a minimum of delay.

## AUDIENCES

This training is specifically designed for: -

- Plant Managers
- 1st Line Operations personnel
- Operation Supervisors
- 1st Line Maintenance personnel
- Maintenance Supervisors
- Operations Engineers
- Process Support Engineers
- Design & Cost Engineers

This is an **Interactive Virtual Instructor-Led Training (VILT)**. Kindly ensure you have a working Webcam and Headset with Microphone.
