

Smart Contracts vs Traditional Contracts

Cryptocurrency and Blockchain

Reshaping industries with smart contracts

24 & 25 March 2025
1.00pm - 6.00pm | GMT+8

Interactive Virtual
Instructor-Led Training

WHY YOU SHOULD ATTEND

This course provides an in-depth exploration of the growing role of blockchain technology in transforming legal agreements, with a particular focus on smart contracts and how they compare to traditional contracts. The course is designed for individuals who are interested in understanding the theoretical foundations, practical applications, and real-world implications of blockchain-based contracts versus traditional legal agreements.

By the end of this course, participants will have a comprehensive understanding of how smart contracts are reshaping industries and how they compare to traditional legal contracts, gain insights into the future trends, challenges, and possible solutions that will drive the evolution of contract law in the digital age.

AUDIENCES

This training is specifically designed for professionals or beginners with little to no prior experience in blockchain or smart contracts including: -

- Software Developers
- Business Professionals
- Project Managers
- Legal Professionals
- Blockchain Enthusiasts
- Security Researchers

And more who are interested in blockchain technology, particularly those looking to learn how to design and develop smart contracts.
