

ARTIFICIAL INTELLIGENCE FOR ENTERPRISE RISK MANAGEMENT

4 - 5 May 2026

9.00am - 5.00pm | GMT +8

Concorde Hotel, KL

Zoom Platform

WHY YOU SHOULD ATTEND

This training is your opportunity to discover how Artificial Intelligence (AI) is reshaping the future of risk management. By attending, you will be able to stay ahead of emerging risks, boost your decision-making power, drive organizational resilience, enhance your professional value and gain practical insights.

Through case studies, hands-on demonstrations, and interactive discussions, participants will explore how AI can be embedded into risk management frameworks to improve resilience, compliance, and organizational performance. The training also highlights the ethical and governance considerations necessary for responsible AI adoption in risk management.

By the end of the course, participants will be equipped with the knowledge and tools to leverage AI as a strategic enabler in strengthening enterprise risk management practices

Organised by:
