

ISO 27001 Implementation & Audit Readiness

13 - 14 July 2026
9.00am - 5.00pm | GMT +8

Concorde Hotel, KL
Zoom Platform

WHY YOU SHOULD ATTEND

Attending this workshop gives you a practical, end-to-end understanding of ISO/IEC 27001:2022, not just theory. You'll learn how to confidently implement an ISMS, conduct risk assessments, and translate complex requirements into clear policies, controls, and documentation. Whether you're starting from scratch or strengthening an existing system, this programme helps you avoid common pitfalls and apply best practices that work in real-world organisational settings.

More importantly, it prepares you to be audit-ready with confidence. You'll understand exactly what auditors look for, how to close gaps, and how to manage internal audits, evidence, and corrective actions effectively. By the end of the workshop, you'll be equipped to drive compliance, strengthen security posture, and build a sustainable, security-first culture within your organisation.

Organised by:

WEeventz Pte Ltd (Singapore)
WEeventz Malaysia Sdn Bhd (Malaysia)
