

Mastering Operational Excellence: Lean Six Sigma Green Belt

*Driving Continuous Improvement Through Lean Thinking,
Data Analytics & Process Excellence*

3 - 5 August 2026
9.00am - 5.00pm | GMT +8

Concorde Hotel, KL
Zoom Platform

WHY YOU SHOULD ATTEND

In today's highly competitive and rapidly evolving business environment, organisations are under constant pressure to improve efficiency, reduce waste, enhance quality, and deliver greater value to customers. Lean Six Sigma (LSS) has become one of the world's most powerful methodologies for achieving operational excellence through structured problem-solving, process improvement, and data-driven decision-making.

Participants will gain a strong understanding of the DMAIC (Define–Measure–Analyze–Improve–Control) framework and learn how to apply industry-recognised Lean Six Sigma tools to real workplace challenges. The programme also introduces statistical analysis using MINITAB, enabling participants to make informed decisions based on reliable data and performance metrics.
