

AI for Brand Protection

Detecting Counterfeits, Digital Infringement and Brand Misuse in the Age of Artificial Intelligence

18 & 19 August 2026

9.00am - 5.00pm | GMT +8

Concorde Hotel KL

Zoom Platform

WORKSHOP OVERVIEW

As organisations increasingly adopt AI technologies, the risks surrounding intellectual property misuse, digital impersonation, and large-scale counterfeit activity are also growing.

This workshop equips participants with the knowledge and practical tools needed to: -

- Identify AI-generated threats targeting brands and intellectual property
- Understand the evolving legal landscape surrounding AI, copyright, and trademark rights
- Strengthen collaboration between legal, marketing, and risk management teams
- Develop a proactive and future-ready brand protection framework

Through interactive discussions, real-world case studies, and practical exercises, participants will gain hands-on insights into how organisations can leverage AI not only to detect threats faster but also to strengthen long-term brand governance and resilience.

Organised by:

WEeventz Pte Ltd (Singapore)

WEeventz Malaysia Sdn Bhd (Malaysia)

TARGET AUDIENCES

This training is suitable for:

- Legal and Intellectual Property (IP) Professionals
- Chief Marketing Officers (CMOs) and Marketing Leaders
