

ISO 9001 & ISO 14001 Management Systems Standards (2026)

*Prepare Your Organization for the Future of Quality and
Environmental Management Systems*

20 & 21 August 2026
9.00am - 5.00pm | GMT +8

Concorde Hotel, KL
Zoom Platform

WHY YOU SHOULD ATTEND

By attending this training, participants will gain a comprehensive understanding of the structure, intent, and practical application of ISO 9001 and ISO 14001 management system standards. The training will provide valuable insights into the latest ISO 14001:2026 requirements and the expected direction of ISO 9001:2026, enabling organizations to proactively prepare for future transition requirements.

Participants will learn how context, interested parties, risks, opportunities, objectives, operational controls, and performance evaluation are interconnected within an effective management system. The training also demonstrates how organizations can integrate quality and environmental management requirements into a single streamlined framework, reducing duplication while improving efficiency and governance.

Upon completion, participants will be equipped to review existing documentation, identify transition gaps, strengthen risk-based and process-based thinking, and develop practical implementation and internal audit action plans that support continual improvement and certification readiness.

Organised by:

WEeventz Pte Ltd (Singapore)
WEeventz Malaysia Sdn Bhd (Malaysia)
