

BOILER OPERATION AND MAINTENANCE

Reduce operating and energy costs, improves safety and extend boiler life

2 - 4 November 2026
9.00am - 5.00pm | GMT +8

Concorde Hotel, KL
Zoom Platform

WHY YOU SHOULD ATTEND

This highly intensive and practical Virtual Instructor-Led Training will help participants to gain the most up-to-date knowledge and understanding of installation, operation, maintenance and management of boiler plants.

This training will be more practically oriented with emphasis to process safety and to enhance the technical competencies, capabilities to meet their job roles requisites and maintain safe and environmentally friendly work practices across the operations. Problems in boiler operation and troubleshooting methods will be illustrated through several real-world case studies.

This is a **Hybrid event** where participants can choose to attend **In Person** at our training venue or join **Virtually** via Zoom Platform.

Organised by:
