

Financial Statement Analysis for Business Performance and Better Decision-Making

Transform Financial Reports into Strategic Business Insights

28 & 29 September 2026
9.00am - 5.00pm | GMT +8

Concorde Hotel, KL
Zoom Platform

WHY YOU SHOULD ATTEND

This comprehensive training equips participants with the knowledge and confidence to read and interpret financial statements, evaluate key indicators such as profitability, liquidity, efficiency, and solvency, and identify an organisation's financial strengths and areas for improvement. Participants will learn how to apply financial insights to support budgeting, performance management, and strategic decision-making while recognising early warning signs of financial distress before they become critical issues.

The training also explores the use of AI-powered tools to enhance financial analysis, reporting, and business insights, enabling faster and more informed decision-making. By the end of the course, participants will be better prepared to communicate financial information effectively to management and contribute more confidently to improving organisational performance and achieving sustainable business growth.

Organised by:

WEeventz Pte Ltd (Singapore)

WEeventz Malaysia Sdn Bhd (Malaysia) HRD Corp Claimable Programme
