

CORROSION MANAGEMENT & CONTROL IN OIL & GAS

Managing Corrosion Risks in Complex Oil & Gas Environments

14 - 16 December 2026
9.00am - 5.00pm | GMT +8

Concorde Hotel, KL
Zoom Platform

WHY YOU SHOULD ATTEND

This training will help participants to develop better understanding in reducing the probability of less unforeseen issues in corrosion management process. Participants will gain knowledge on how to estimate, optimize and reduce cost of corrosion in their plant. Organisations will be able to ensure increased production, increased operation output, and reduce unplanned shutdowns.

This training will discuss the best practices in controlling and managing internal and external corrosion in oil and gas pipeline systems, at the same time will address a number of key areas including corrosion fundamentals, relevant corrosion mechanisms, corrosion monitoring, corrosion control and mitigation techniques.

TARGET AUDIENCES

This training is specifically designed for:

- Corrosion, materials, and integrity engineers
- Oil and gas operations and maintenance personnel
- Inspection, QA/QC, and reliability engineers
- Asset integrity, pipeline, and HSE professionals
- Engineering managers and technical supervisors

Organised by:

WEventz Pte Ltd (Singapore)
WEventz Malaysia Sdn Bhd (Malaysia)

This is a **Hybrid event** where participants can choose to attend **In Person** at our training venue or join **Virtually** via Zoom Platform.

www.weventz.sg

Strictly limited number of seats to ensure maximum learning and experience for all participants
Thorough and customized program to address current market concerns
Provision of a digital certificate to participants at the end of the training
