

MODERN WELDING TECHNOLOGY

Welding, Fabrication & Inspection

Learn the latest techniques and machinery in welding technology

9 - 11 December 2026
9.00am - 5.00pm | GMT +8

Concorde Hotel, KL
Zoom Platform

WHY YOU SHOULD ATTEND

Participants will gain a deeper understanding of welding principles, process selection, weld defects and prevention, inspection techniques, and the latest technological developments including automated welding systems and improved welding consumables. The programme also emphasizes safety practices, welding procedure specifications, and quality assurance to ensure reliable and consistent weld performance.

By the end of the training, participants will be better equipped to select appropriate welding techniques, improve weld quality, minimize defects, and enhance productivity in fabrication operations.

TARGET AUDIENCES

This programme is suitable for professionals involved in welding, fabrication, and inspection activities, including:

- Welding Engineers and Welding Supervisors
- Fabrication Engineers and Technicians
- Mechanical and Manufacturing Engineers
- Quality Control and Inspection Personnel
- Maintenance Engineers and Technicians
- Production Supervisors and Workshop Managers
- Technical staff involved in metal fabrication and welding operations

Organised by:

WEventz Pte Ltd (Singapore)
WEventz Malaysia Sdn Bhd (Malaysia)

HRD Corp Claimable Programme

This is a **Hybrid event** where participants can choose to attend **In Person** at our training venue or join **Virtually** via Zoom Platform.

www.weventz.sg

Strictly limited number of seats to ensure maximum learning and experience for all participants
Thorough and customized program to address current market concerns
Provision of a digital certificate to participants at the end of the training
