

Geometric Dimensioning & Tolerancing Controls

Interpret engineering drawings and make specific observations on critical datum & specification symbols

23 & 24 November 2026
9.00am - 5.00pm | GMT +8

Concorde Hotel, KL
Zoom Platform

WHY YOU SHOULD ATTEND

The accelerated training methodology utilized during the workshop session will encourage and integrate key principles and practices through the synergistic learning which is proven to dramatically increase the rate of attention, comprehension and retention throughout the training session filled with a host of activities to reinforce the subject and learning objectives of the program utilizing the relevant inductive (inquiry based) and deductive (demonstrative) training approaches.

During this session, practical activities will be given to reinforce the learning for work place application which will make up part of the requirements for GDT application and product inspection. Participants will be required to bring their actual drawings as workshop activities to reinforce the learning in actual work place situation.

Organised by:

WEeventz Pte Ltd (Singapore)
WEeventz Malaysia Sdn Bhd (Malaysia)

TARGET AUDIENCES

This workshop specifically designed for: -

- Design engineers
- Product & Process Engineers
- Maintenance Engineers
- Mechanical Engineers
- Electrical/Electronic Technicians

This is a **Hybrid event** where participants can choose to attend **In Person** at our training venue or join **Virtually** via Zoom Platform.
